**UPDATE ON CORONA VIRUS AS PER GOVERNMENT DIRECTIVES**

Dear Parents / guardians,

1. You all are well aware that the Novel Corona Virus (COVID-19) is spreading across the countries and with much uncertainty which is fast becoming a matter of grave concern globally. In India as well, numerous precautionary measures have been put into place by many State Governments, like restricting travel and public gatherings, cancelling/postponing sporting evenings, closing Malls, Movie Halls and Schools too.
2. After a great amount of deliberation and keeping in mind the utmost interest and safety of children and staff, it has been decided that the School will remain closed tentatively. We shall review the situation after the Govt's future directives. The safety of our students is our primary concern so we have declared Summer Vacations in the School. Parents may note that summer vacations have started earlier than usual time. So the new academic session will also commence earlier than usual date.
3. School opening dates will be intimated shortly by the Housemasters as and when the situation improves and as per Govt. clearance.
4. In the interest of health and welfare of the students and the teaching community, the Council has decided to postpone all ICSE and ISC -2020 exams scheduled to be conducted between the period March 19 to 31, 2020.
5. We fully understand that there is a high likelihood that this year's School Calendar will get disrupted and many events would need to be cancelled or rescheduled to compensate for the loss of academic time.
6. The holiday homework will be uploaded on the School website so that the kids can be engaged gainfully while they are home.
7. Kindly keep your children safe, keeping them indoors as much as possible and take all precautions which is mandatory in these desperate times. We all have to join hands in keeping ourselves and those around us safe in this unexpected and disastrous global pandemic.
8. We thank you all for your kind cooperation and hope and wish for normalcy soon so that we can resume active work.

With warm regards

  
(Dr. Jagpreet Singh)
